

**FOR IMMEDIATE RELEASE**

## **Insight Canada Achieves Premier Certification from Cisco Systems, Inc**

**Tempe, Ariz. - May 10, 2007 – Insight Enterprises, Inc. ((NASDAQ: NSIT)** announced today that its Canadian operations, Insight Canada, has achieved Premier Certification from Cisco Systems®. The Cisco® Channel Partner program provides Insight Canada with the resource framework to develop an expertise to sell, plan, design, implement and operate Cisco networking solutions. To earn Premier certification, Insight Canada had to meet or surpass the stringent personnel training, customer satisfaction, specialization, and post-sales support requirements set forth by Cisco.

“We are committed to creating the tools, training and programs that help drive channel partner profitability through improved productivity and return-on-invested capital,” said Surinder Brar, senior director, Worldwide Channels for Cisco. “With a Cisco Express Foundation specialization, Insight Canada has secured the training, skills and knowledge to play a pivotal role in accelerating the adoption of Cisco technology solutions.”

The program delivers state-of-the-art technical and sales training so that certified partners can increase their ability to deliver services related to the latest Cisco technologies for maximized productivity. Cisco Premier Certified partners are recognized and rewarded for employing some of the industry’s best-trained network technicians who can demonstrate their expertise in planning, designing, implementing and supporting Cisco network solutions. These teams of network technicians are audited annually to ensure that they consistently deliver industry-leading support and maintain the rigorous Cisco standards for network expertise and support capabilities.

As a Cisco Premier Certified Partner, Insight Canada enjoys several benefits, most notably, access to the latest Cisco customer satisfaction tool, Partner Access onLine (PAL). The new PAL tool is based on the same technology that Cisco uses to monitor and improve its own customer satisfaction. Other benefits include increased access to the Cisco technical support teams as well as access to password-protected Websites with real-time product and training information.

Cisco Premier Certified partners provide 8x5 technical services to their clients with a 24-hour response time for problem resolution and 24-hour on-site response capabilities. These rigorous support requirements highlight Insight Canada’s commitment to supporting its strategic business network and sustainable business models.

## About Insight
