

TECHNOLOGY ASSESSMENT SERVICES

Unbiased technical explanations, evaluations and recommendations on software and services.

UNCOVERING YOUR BEST OPTIONS

For unbiased technical explanations, evaluations and recommendations on popular or emerging software and services, turn to Technology Assessment Services (TAS) at Insight.

In Dallas, Texas, our certified Sales Engineers use a state-of-the-art facility to test and evaluate software. Advanced testing results can help you decide which products best suit your organization's technology needs.

Since Insight does not represent any one specific software publisher, we are uniquely positioned to provide you with objective, factual information on the technical aspects of any software application that falls within our core competency areas. We can also research and advise on any other software request you may have.

Currently, our TAS sales engineers demonstrate core expertise in the following practice areas:

Enterprise Systems

- Virtualization
- Database
- Reporting

Lifecycle

- Asset management
- Help desk
- Hardware/software inventory
- Patch management
- Remote control
- Software deployment
- Server management

Security

- Intrusion detection systems
- Intrusion prevention systems
- Managed security services
- Anti-spam
- Identity and access management
- Web content filtering
- Enterprise firewall
- Network monitoring

Storage

- E-mail archiving
- File archiving and information lifecycle management (ILM)
- Tape backup
- Disk-to-disk backup
- Disk replication
- Storage management

Canadian clients can access their dedicated TAS Sales Engineers through an Insight Account Executive or at 905-501-7612.
